## EXPERIENCE

### Sustainable Advisor

InBlue

07/2024 - 08/2024 Remote

InBlue is a company focusing on sustainable solutions

- Enhanced environmental sustainability by {25%} by implementing innovative green initiatives.

### Cyber Security Intern

Gurugram Police

06/2025 - 07/2025 Gurugram, Haryana

Law enforcement agency with a specialized cybercrime unit combating digital threats and frauds.

- Developed two cybersecurity-focused projects to support digital threat analysis and investigation efforts for Gurugram Police.

## PROJECTS

### SWYF- SEE WHAT YOU FIT

swyf.onrender.com

Developed an AI-powered virtual try-on platform integrating color analysis and a reward system to enhance online shopping experiences and reduce returns.

- Won 3 hackathons for its innovation, user impact, and technical execution.

### CryptoSpy

Built a tool to trace cryptocurrency wallets used in cybercrimes by scraping public sources and the dark web to identify past cases, owner details, and transaction histories linked to suspicious wallet addresses.

- Successfully aided in crypto crime pattern recognition and forensic research; contributed to cybercrime investigation insights for Gurugram Police.

### Magic Clipboard

https://huu-tau.vercel.app/ (pw: mkc)

Developed Magic Clipboard, a real-time clipboard-sharing app with animated UI, secure sharing, and Firebase storage.

- Achieved seamless cross-device sync, fast updates via WebSockets, and secure password-protected entries.

### Aid - Emails

https://aidmail.vercel.app

Aid - Email z is an AI-powered email management system that enhances productivity with smart automation, security, and efficient organization.

- Improved email handling efficiency, reduced clutter with AI categorization, enhanced security against phishing, and optimized user experience with smart replies.

### Userbots & Chatbots

Developed AI-powered WhatsApp and Telegram bots with command-based features to enhance user interaction and automation.

- Implemented command-based features for seamless user control and improved engagement.

### Event counter - Backend Project

https://sorry-sable-eta.vercel.app/

Event counter project providing unified event counting

- Established a password protected online event counter

# EDUCATION
